## Volks Folks Fall Campouts Coming Up!

Aircooled Kustoms. All members are encouraged to attend both, but the club will cover one of them for you. We hope this way everyone can attend at least one. Find out more on our [Member Forums](#).

## VW Ceases Production of Magnesium Engine Cases

We all knew it had to happen sooner or later. Zen points out on our [forums](#) that [VW Brazil has stopped production of](#)

**air-cooled blocks.** Zen also says "This doesn't mean that you will never be able to build a new VW engine again, just that in the near future you won't be able to base it on a real VW block...that and the price will probably go through the roof". Better hang on to those original blocks!
